

Quality & Environmental Policy

Our vision is to provide a range of reliable and cost-effective solutions to marine professionals and boat manufacturers worldwide at prices that reflect their true value, are fully repairable and maintainable, plus offer support for those products for their lifetime. We are committed to the protection of the environment from pollution, harm and degradation through lowering our impact and influencing stakeholders to consider theirs.

The Senior Management Team have identified the requirements of the client base and other stakeholders and have designed the company processes to meet these requirements. Quality and environmental objectives have been determined and are reviewed and updated where necessary, at the annual management review.

The company environmental objectives have been determined based on the establishing of the environmental aspects and subsequent impacts. The mitigation of the impacts are addressed meeting the objectives and performance against these is monitored and reviewed by senior management. All work is in accordance with written process flow procedures and these incorporate lines of responsibility, accountability and regular checks and reviews. The principles embraced in the standards achieved have been embodied in our formal Quality and Environmental Management System.

Customer focus: As an organisation we have made a commitment to understand our current and future customers' needs; meet their requirements and strive to exceed their expectations.

Continual Improvement: We have committed to achieving continual improvement and this is managed through internal and external auditing of our management system and processes and review of our stakeholder and compliance obligations.

This policy is available to all interested parties, upon request, as well as being made available to the wider community through publication on our Website and Company Noticeboard. Any Ocean Footprint Limited policy will be reviewed annually to assess its continuing suitability.
